EXPERIENCE

Product Designer — JIE HENG Information Co., Ltd.

Taichung, Taiwan | 08 / 2020 – Present

- Spearheaded the design and delivery of **100+** responsive web interfaces for public and academic institutions, ensuring usability and visual consistency across platforms.
- Solved critical UX challenges through usability testing and iterative design, ensuring solutions met both user needs and technical constraints.
- Developed accessible, brand-consistent web applications leveraging HTML, CSS, JavaScript, and design systems to enhance user engagement and maintain visual coherence across platforms.
- Led user-centered design initiatives on flagship projects including the **FORMOSAT-8 Satellite**, **national universities**, and **Tainan City's "Tainan 400" AR educational platform**. The platform exceeded user engagement targets by **16%**, achieved a **77.6%** completion rate, and was officially adopted as part of the outdoor curriculum, impacting over **10,000** students.

Digital Content Designer — Ninety Plus Education Centre

Sydney, NSW, Australia | 02 / 2020 – 07 / 2020

Designed and produced print-ready assets for both small and large format materials, including banners, brochures, posters, flyers, and digital graphics, aligned with brand and production specifications.

Web Designer — SUBKARMA

Taichung, Taiwan | 04 / 2017 – 06 / 2018

- Collaborated with developers, PMs, and the sales team to design, implement, and present website updates and design proposals, ensuring brand alignment, responsive UI consistency, and strong client communication aligned with business goals.
- Refined layouts, micro-interactions, and site performance through HTML/CSS adjustments, image optimization, and cross-browser testing—enhancing visual hierarchy, usability, and seamless user experience.
- Supported key product for clients including **China Airlines**, Union, and XSGames, strengthening brand identity across digital platforms.

Web Assistant Designer — GT Marketing Co., Ltd.

Taichung, Taiwan | 10 / 2015 – 09 / 2016

- Assisted senior designers in planning site structure, user flows, and navigation to support business and audience goals.
- Created responsive web layouts and supported production of web components and visual assets using HTML and CSS, enhancing usability and maintaining consistent branding.

UI Designer — Keitai Co. Ltd.

Taipei, Taiwan | 09 / 2014 – 09 / 2015

Interned on mobile game projects, contributing to UI design, 2D character illustration, gameplay planning, and promotional video production.

EDUCATION

Northeastern University

Master of Digital Media

Boston, MA | 01 / 2025 – Present | GPA: 3.69

Relevant Coursework:

Usability and Human Interaction, Interactive Information Design and Research Methods for Global User Experiences

National Taichung University of Science and Technology

Bachelor of Multimedia Design

Taichung, Taiwan | 09 / 2012 – 09 / 2015

Specialized in human-computer interaction and creative technology

Designed and developed ZANTI, a mobile game combining sci-fi narrative, strategic decision-making, and GPS-based interaction. Integrated real-world location tracking to enhance player immersion and engagement.

- Awarded the **Gold Medal** at the Information Technology Cup, among national university-level submissions
- Received the **Best Creative Award** at the Good Horse Game Cup Game Creative Competition
- Honored with the **Special Award for Sponsor** at the Youth Innovative Design Festival
- Recognized with a **Special Award** at the Cultural Heritage Creative Award
